Annual Report of the District 14 Standards Committee and Web Page

The Standards committee continued with the process of reviewing and updating all District 14 SOG's. We are finalizing the Fire Investigation Committee SOG's and our next set to review will be the Communication Team. Covid has slowed down of progress somewhat but we hope to pick up the pace moving forward.

The District 14 Web Page continues to evolve. We continue to update the available information such as current meeting minutes and updated budget information. Two new pages have been added to the site. Training and Job Postings. Any Chief wishing to have a job opening posted or training added just needs to send a PDF or a link with a description and we will get it posted ASAP.

Respectfully in Safety and Service

David Parenti Chair District 14 Standardization Committee and Web Master
