Annual Report of the District 14 Standardization Committee And Website

The Standardization Committee completed 5200 CISM. Progress on other items has been slow but we hope to step it up this year

The Web site has continued to evolve with new pages and information always being added. I ask that if you have any training, job postings, pictures, or anything else that you would like to share to please send them to me.

Respectfully in Safety and Service

David Parenti Chair District 14 Standardization Committee
